

Continuing Education Programs

Adventures in Artificial Intelligence Analytics - Virtual Camp

Are you interested in learning programming and using it to find meaningful insights from the data? Do you want to know about artificial intelligence (AI) and machine learning? Get introduced to the world of analytics and know how it is related to AI technologies.

Learn the basics of python programming and apply it to import data sets, clean and prepare data for analysis and visualize datasets. From data analysis, you will be led to the field of AI and machine learning.

Program Dates

- **June 13 - 18 for Rising 6 - 9 grade students**
- **This course will take place online via Zoom**

Program Fee and Detailed Information

Virtual Program Fee - \$450

- Online session will run from 9 a.m. to 3 p.m. Monday through Friday
